**ROUTE 3A IMPROVEMENTS IN HUDSON SCHEDULED TO BEGIN**  
***WIDENING AND RECONSTRUCTION OF THREE-QUARTERS OF A MILE***

The New Hampshire Department of Transportation announces work is scheduled to begin the week of June 14, 2004 on the widening and reconstruction of a section of NH Route 3A in Hudson.

This project involves widening three-quarters of a mile of NH 3A just north of the Merrimack River bridges from two lanes to four lanes, with an additional two middle turning lanes. Previous work on the project has included asbestos removal and utility relocation.

Two lanes of traffic will be maintained during the construction. Occasional lane closures, controlled by uniformed officers and flaggers, will be necessary.

Continental Paving of Londonderry, New Hampshire is the contractor for the \$1,771,000 project, which is scheduled for completion in summer 2005.
